THE FORTY-FOURTH ANNUAL REPORT
OF THE
BOARD OF MANAGERS
OF
ST. LUKE'S HOSPITAL,
FROM

OCTOBER 1, 1901, TO SEPTEMBER 30, 1902.

Owing to the cancellation of the agreement with the House of Rest for Consumptives on January 1, 1902, and the consequent closing of the wards that had hitherto been used for consumptive patients, the statistics of the year present a diminution of work as compared with the previous year. The number of Hospital days has been 17,139 less, and the number of patients treated shows a decrease of 252.

The current expenses this year have exceeded by \$27,566.13 the current income, and this with four wards standing vacant. These wards could readily be used, save for two reasons—first, the income of the Hospital is insufficient to meet the increased expense necessary in such action, and second, through the present occupancy of the two upper floors of the Nurses' Home by private patients, it would be difficult to maintain a nursing force essential to the care of a larger number of patients. The remedy of the first cause is obvious. St. Luke's, to meet the demand upon it by the sick poor of New York and its vicinity, must have more money at its disposal; and we earnestly appeal not only to the old friends of the Hospital, but also to all who are charitably minded, for support in the larger work that the increased population of the city calls upon us to do. It is hoped that the second difficulty will be met in the near future by the erection of a Pavilion for private patients, the need of which is very explicitly set forth by one of the Attending Surgeons of

the Hospital in a letter to the President, which will be found in a Supplement to the Manager's Report. It is confidently thought that this Pavilion will, from its opening, pay the interest on the capital employed in its construction, and will be not only self-supporting but afford a revenue toward the care of indigent ward patients.

The great advances in Surgery, the requirements of modern aseptic precaution, and the pathological and bacteriological research demanded to obtain the best results, are adding each year very materially to the cost of caring for patients. These facts, together with the decrease in the rates of interest, make it very evident that the charge heretofore made for the endowment of beds, \$5,000 for an adult's and \$3,000 for a child's bed, are entirely inadequate for their support, the income of these sums at four per cent. per annum being respectively \$200 and \$120, while the cost of a patient for a year at \$2.08 per diem, as per this Report, is \$759.20. As a partial relief to this situation, and after careful consideration, it has been deemed not only wise but absolutely necessary to increase the terms of endowment to \$7,500 for an adult's and \$5,000 for a child's bed, and a Resolution to the effect was passed at the last meeting of the Board. In this connection it is proper to draw the attention of donors to the fact that the legacy tax is now required to be paid by Hospitals, thus reducing the amounts bequeathed for endowments, unless the testator provide in the will that it be paid from the estate.

During the year the gifts and legacies were as follows:

Legacy of Henry Guilbeault.....	\$6,083	81
Additional amount received on account of legacy of George P. Clapp.....	3,500	00
Unrestricted legacy from Estate of Andrew Jeffries Garvey	3,500	81
Final payment on account of Mary A. Edson's legacy,	1,650	50
Final payment on account of legacy of Charles H. Contoit	5,511	98
Additional instalment received on account of Rock- land County Bed.....	175	00
One bed endowed in perpetuity, in Children's Ward, by Mrs. Elizabeth H. Russell, in memory of her daughter, Grace Russell Hooker.....	3,000	00

Five beds endowed in perpetuity, by Estate of Andrew Jeffries Garvey—two in memory of his mother, Elizabeth Jeffries Garvey; two in memory of his brother, John Garvey; and one in memory of his friend, George W. McLean.....	\$25,000 00
Fourth instalment on account of Edwin Parson Bed..	1,000 00
One bed endowed in perpetuity, in Children's Ward, by Mrs. Louise W. Bowers, mother; Amelia B. Willard, Louise B. Cater, Marion B. Carroll, Eleanor S. Bowers, sisters; and Henry Bowers, brother; in memory of Sibyl Lawrence Bowers..	3,000 00
One bed endowed in perpetuity, in Children's Ward, by Mrs. Harriet H. Ranney, in memory of her sons, Willard M. and Julius H. Ranney.....	3,000 00
One bed endowed in perpetuity, by Mrs. Harriet B. Ranney, in memory of her husband, Moses H. Ranney	5,346 23
One bed endowed in perpetuity, by Estate of Robert Graham Dun	5,000 00
One bed endowed in perpetuity by Phillips Phoenix, in memory of his wife, Eleanor Phoenix.....	5,000 00
Final instalment on account of Edwin Parson Bed..	1,000 00
One bed endowed in perpetuity, in Children's Ward, by Mr. and Mrs. George Macculloch Miller, in memory of their son, George Macculloch Miller, Jr.	5,000 00
One bed endowed in perpetuity, by Mrs. Alice G. Wheelock, in memory of her parents, William Hawxhurst and Sarah Ann Townsend.....	5,000 00
One bed endowed in perpetuity, by Mrs. Margaret J. Plant, in memory of her husband, Henry Bradley Plant	5,000 00
One oil painting from Mrs. Sarah A. Townsend.	
One oil painting from Mrs. Mary A. Kemeys.	

On November 25th Dr. C. P. Bulson was appointed Assistant Surgeon to the Out-Patient Department; and on January 27th Dr. Everett W. Gould was appointed Assistant Physician and Dr. F. J. C. Fitzgerald Assistant in Gynecology to the Out-Patient Department.

Dr. John T. Metcalfe, Consulting Physician since 1859, and Senior Member of the Medical Board, died January 30th. He was one of the first four physicians appointed as Consultants to the Hospital, and in the earlier days of the institution rendered a service of the highest ability and greatest devotion. Impaired health during the last several years of Dr. Metcalfe's life deprived the Hospital of his professional assistance.

On the 31st of March Dr. Henry F. Walker was elected Consulting Physician to fill the vacancy created by the death of Dr. Metcalfe.

Miss Annie W. Goodrich, for two years Directress of Nurses, resigned May 26th. Her resignation was accepted with regret and the best wishes of the Board.

Miss Mabel Wilson, a graduate of St. Luke's, and afterward the Superintendent of St. John's Hospital Training School, Brooklyn, succeeded Miss Goodrich as Directress of Nurses.

On September 14th the Managers were called on to mourn the sudden death of Mr. Samuel D. Babcock, the oldest Member of the Board. His death brings to all his associates a singular sense of personal loss. The Memorial and Resolution passed at the first meeting after his decease will be found appended to this Report.

The services of the Attending and Consulting Physicians and Surgeons have been rendered, as hitherto, gratuitously, to the ward patients, and we acknowledge these services with gratitude and appreciation.

By order of the Board of Managers,

GEORGE MACCULLOCH MILLER,
President.

HOFFMAN MILLER,
Secretary.

At a Meeting of the Board of Managers of St. Luke's Hospital, held September 29, 1902, the following memorial of Mr. Samuel D. Babcock was unanimously adopted:

The sudden death of Mr. Samuel D. Babcock, First Vice-President of this Board, on the 14th instant, has brought upon his associates an irreparable loss and great sorrow. Elected a

member in 1856, Mr. Babcock continued such until his death, being thus a Manager longer by ten years than any other surviving member, and through all this term he attended with exceptional regularity the meetings of the Board, giving freely of his ripe judgment and remarkable experience to all subjects requiring his attention.

As Chairman of the Building Committee of the present Hospital, as well as in the selection of its site, the similar relation he had held to the building of many other important structures in the city, coupled with his unusual knowledge of real estate, made the services he rendered the Hospital in this respect of unmeasurable value; but while these services may have been such as he rendered the various institutions which have had the benefit of his wise counsel and able direction in their management, he gave to St. Luke's, in connection with and in addition to these, something more than he gave to any other. He loved and had a sentiment for this undertaking and for this Corporation because of what it was to Dr. Muhlenberg, and of what Dr. Muhlenberg was to it; and probably for the reason that having, as a young boy, been a pupil of Dr. Muhlenberg's at College Point, he had imbibed there a love and reverence for him, which, in his manhood, attached itself to this work, and made all he did for St. Luke's a loving tribute to his regard for its Founder.

If a salient trait of Mr. Babcock's mental and moral equipment be selected to illustrate his character and account for the success which followed his career, it might well be his steadfastness in principle and practice. In business he rarely abandoned or turned aside from anything he had undertaken.

In his religious and political views he seemed never to change, and as a friend he was always faithful and to be relied upon. These characteristics, with the other attractive personal qualities of Mr. Babcock, won the love and esteem which his associates in this Board retain for him, and make them truly mourn the loss they have sustained in his death, and also deeply sympathize with his family in their bereavement.

DR. ABBE'S LETTER ON THE NEED OF A PAVILION FOR PRIVATE PATIENTS.

13 WEST 50TH STREET, NEW YORK,
May 22, 1902.

GEORGE MACCULLOCH MILLER, Esq.,

President of the Board of Managers of St. Luke's Hospital.

MY DEAR MR. MILLER: I am aware that the Board of Managers of St. Luke's is desirous at all times of having brought to its notice the independent views of its various officers, and therefore write this brief note, expressing my personal conviction that the prestige of our Hospital is not maintained by the present arrangement of private room service.

As Senior Member of the Surgical Staff, and having watched the growth of the idea of the private hospitals, or of private room hospital service in our own institution, I must say that we cannot fail to recognize a growing demand for better service and accommodation than St. Luke's now affords in its temporary quarters. To be brief, I would like to put the following points:

First.—My own experience with our present service leads me more and more to prefer to operate on patients of the better class in their private houses, although it is at a serious disadvantage to me in subsequent visits and time consumed in operation.

Second.—I find patients do not regard the accommodation attractive enough to draw them from their own refined homes, though they know the reputed advantage, to them, of an orderly and well-equipped modern Hospital service.

Third.—The noises of our corridor are most difficult to control—elevator service, walking, talking, offensive resounding noises of ether intoxication, pastime amusement of nurses, etc., etc.

Fourth.—We are losing patronage of many who know the attractiveness of the New York and Presbyterian Hospitals and other modern buildings, and in the near future we will have the Mt. Sinai and Woman's Hospitals, too, at our elbows. There is even in project a large and charmingly equipped private hospital, in which I was earnestly solicited to-day to take part, conducted by an enterprising and able physician, who has for eleven

years conducted one in Chicago, which is now paying 20 per cent., and which he claims can be duplicated and improved in New York and made to pay 30 per cent. on investment. Thus, it seems to me, there is a growing movement in which we certainly cannot hope to share, if we maintain our present service in the Vanderbilt Nurses' Pavilion; a movement which draws into it a new class of Hospital service, engaging and interesting an entirely proper and well-to-do element in the community, each member of which becomes afterward an enthusiastic advocate of our Hospital interests.

Fifth.—The Vanderbilt Corridor is needed for nurses, who should have a life of their own in a true dormitory, as intended by Mr. Vanderbilt. At present they are necessarily under constant suppression as to music, recreation, and proper entertainments, because all such are absolutely impossible where sounds rise through the Corridor to the private rooms. The windows in the present rooms are hopelessly useless and blank for the enjoyment of convalescent patients, as they cannot see out of them except when standing; hence, convalescence is robbed of one of its valuable stimulants, and there is left only a prison effect.

Sixth.—There is practically no bath-room for convalescent patients.

Seventh.—There is no adequate waiting-room for friends to see patients, or for doctors to confer with these friends. This is a most essential feature of a proper group of rooms, and at Roosevelt Hospital, where I had three years of use of the Private Pavilion, it seemed to me one of the most constantly used and valuable adjuncts.

Eighth.—There is no way for convalescents to get out in wheel-chairs except to be steered around a circuitous corridor, bumping a half-dozen corners and into a troublesome elevator, thence to the cellar, and by another passage across a furrowed pavement and over various sills to the street, where they mingle with the Hospital patients. Elderly patients I have known to refuse to be taken out, or dread it as a punishment.

Ninth.—We should have an independent operating-room and House Staff.

Tenth.—There should be, in justice to the surgeon, a ward or two of beds for patients paying less than private-room service, and who would then have a little fee left for the surgeon (whose

time is money to him), but who now can pay nothing except the room charge.

I offer these suggestions, knowing that your Honorable Board have constantly had in mind the need of such long contemplated improvement, simply desiring to say that the practical need of the community to-day, as I find myself impressed by daily experiences, is one of rapidly growing demand for better Hospital accommodation, for which a larger and larger number are willing to pay adequately.

Hoping I have not intruded too much upon your time, I am,

Yours very truly,

ROBERT ABBE, M.D.

Special Appeal

For continuing the work 'on the scale of the past year, there is needed an addition of at least eight hundred thousand dollars

TO THE

General Endowment Fund

Four wards stand vacant because there is not money to open them.

Three hundred and sixty-six patients were refused admission last year because of insufficient revenue.

Eighteen thousand dollars (\$18,000.00) will support a ward for one year, giving 9,125 days of hospital treatment.

It is especially urgent that an additional male surgical ward be opened.

Your Help is Earnestly Solicited

For larger benefactions needed, see next page.
For endowment of beds and rooms, see page 54.
For Century Fund, see page 19.

Larger Benefactions
Also Are Needed

For the Endowment of the Pathological
Department.

For Building the Pavilion for Private
Patients.

CENTURY FUND.

The "Century Fund" of St. Luke's was inaugurated by Dr. Muhlenberg as a yearly subscription by 100 persons of \$100 each toward supplying the difference between the annual expenses of the Hospital and its income. For a time this century fund was maintained at its full number and amount, but through the death of original subscribers, and from an impression which is abroad that St. Luke's income from endowment having increased, there is not the same need of these contributions, the number of subscribers has gradually diminished. The income, however, has not grown as fast as the expenses; partly because of the steady increase in the proportion of patients with acute diseases and of applicants for free treatment, partly because the wards of the Hospital which are opened for patients are kept more continuously full.

The work of the Hospital for the past year is found on page 29. The relation of the receipts to the expenditures is found in the Treasurer's Report, page 17.

The number of subscribers last year was 91.

A subscription for the current year carries with it no obligation for the next. Subscriptions should be sent to the Treasurer.

Four nurses go to the Sloane Maternity Hospital every three months for training in obstetrical nursing, and during the year it has been arranged with the New York Lying-In Hospital to receive four of our nurses for special training every three months. Eight nurses are sent to the New York Eye and Ear Infirmary in the year, two at a time for periods of three months, for instruction in diseases of the eye and ear.

In order to work out the new departure of formally graduating the nurses, exercises were twice held this year. On the evening of November 7th, with appropriate religious services, the President of the Hospital presiding, nineteen nurses were graduated; the Rev. Dr. Stires delivering the address. On May 26th, with the Secretary presiding in the absence of the President, twenty-two nurses were graduated, the Rev. Dr. Vandewater delivering the address.

Many of the graduates of our Training School are becoming well-known in their efficient work abroad. Some have assisted in the organization of the Hospitals in Cuba, and several have established a colony in Paris, France, from whence they go to the various places on the Continent to which they may be called for duty. One nurse is in Syria, where she is reflecting credit on her Alma Mater.

Gifts of a handsome mirror, set in ebony, for the Nurses' Parlor, and ping-pong tables have been received, which are much appreciated.

We beg to thank Dr. Hollis and Dr. Gould, Attending Physicians to the Training School, for their professional care of the nurses, and also the members of the House Staff, who have given special instruction to the nurses during the year.

Net cost of 65,860 days' treatment of ward patients.....	\$137,434	70
Per capita per diem cost of ward patients.....		2 08

The total House Expenses are \$17,136.53 less than last year, and the net cost for caring for ward patients is \$12,114.58 less than last year; but, nevertheless, there is an increased per capita cost for ward patients this year. The decreased expenses are due to the closing of the wards for consumptives, and to the fact that fewer repairs were required on the buildings, while the increased per capita cost is to be accounted for largely by the giving up of the Consumptive Department, which made a daily average of 47 patients less than last year. Expenses cannot be diminished in proportion to a decrease in the number of patients. The only items in which a saving can be effected are food supplies, drugs, and nursing. The administrative force must remain practically the same; the entire building has to be heated and kept clean. The kitchen work is not appreciably lessened, and the decrease in laundry, which would naturally follow the diminution in the number of patients, has been more than counterbalanced by the increased work incidental to the larger surgical service and the greater number of operations connected therewith.

Contributing causes to the increased per capita cost have been the higher prices for food supplies, especially meat, that have

prevailed throughout the year, and the larger percentage of surgical cases that have been treated.

We are much indebted to the Isabella Heimath for prompt responses to our frequent appeals for the admission thereto of our convalescent patients. Were it not for that institution we would be obliged to decline many more cases than we do. We also gratefully acknowledge the sewing which has been done by the societies of several of the city churches.

Through the generosity of Mr. O. H. P. Belmont, tents were erected for the Summer on the western lawn. They have proven of great benefit to the patients, and have been much enjoyed by them.

Other articles, a list of which is to be found on page 56, we acknowledge with profound gratitude.

GEORGE F. CLOVER,
Superintendent.

PASTOR'S REPORT.

TO THE HONORABLE THE BOARD OF MANAGERS :

Gentlemen :

The pastoral statistics for the year are as follows :

Baptized	7	Holy Communion :	
Confirmed	6	In Chapel	40 times.
Marriages	7	In wards	53 "
Funerals	74	<i>In extremis</i>	32 "

The services have been as usual. Each morning, except Sundays, a short service has been held in every ward, and Evening Prayer has been said in the Chapel at 6 P.M.

On Sundays in the Chapel, at 10.30 A.M., there has been full morning service with a sermon, and at 4 P.M. Evening Prayer has been said.

On the first Sunday of the month the Holy Communion has been celebrated at 10.30 A.M., on the third Sunday at 6 A.M., and on the Major Festivals of the Church Year.

There has also been, with few exceptions, a celebration of the Holy Communion in one of the wards each Sunday.

On Christmas and Easter the Blessed Sacrament was administered to every inmate of the house desiring to receive it.

By request of the Chaplain of Columbia University and the members of the Church Guild of Barnard College, the Pastor has administered the Holy Communion to the young women of the Guild on the last Thursday of each month during the College year.

The Assistant Pastor has regularly attended the wards for Christian instruction and consolation of the patients.

The following is

The choir of Holy Trinity Church, Harlem, has been good enough to visit the Hospital on two occasions during the year to sing the Christmas and Easter carols in each ward; and on the first Sunday in Lent, through the courtesy of the Rev. F. N. Strader, Rector, and Mr. J. W. Worth, organist, the full choir of St. Paul's Church, Morrisania, sang in the Chapel at Evening Service.

The members of the St. Cecilia Sunshine League have twice rendered vocal and instrumental music for the patients, which was greatly enjoyed by them.

The King's Daughters of Zion and St. Timothy's Church, through Mrs. Earl D. Berry, presented a very handsome violet embroidered altar cloth and two violet stoles.

The donations for the Kindergarten were so generous that work was continued until June. The training has been such a pleasure and so beneficial to the children that it has been resumed for the winter on faith, and in the hope that the necessary money for the support of the Kindergarten will be forthcoming.

We are indeed grateful for the kind interest and the many gracious acts in connection with our religious and educational efforts.

GEORGE F. CLOVER,
Pastor.

EXAMINATIONS MADE IN THE DEPARTMENT OF CLINICAL PATHOLOGY.

During the year the following examinations were made in Clinical Pathology:

BLOOD EXAMINATIONS.

Hæmoglobin determinations	233
Differential counts of leucocytes.....	349
Enumeration of red cells	92
Enumeration of leucocytes	450
Examinations for iodophilia	126
Widal reactions, including clump reactions with Gärtner and paracolon bacilli	420

URINALYSIS.

Diazo reactions	407
Indican tests	70

BACTERIOLOGICAL EXAMINATIONS	340
Cultures made in diphtheria cases.....	75

X-RAY DEPARTMENT.

The new X-ray machine was installed and ready for service about February 1, 1902. Since that time the use of the machine has been as follows:

Fluoroscopic examinations of patients.....	632
X-ray photographs taken	398
Treatments given for various conditions.....	423

The latter may be divided as follows:

February	11
March	31
April	71
May	78
June	43
July	45
August	84
September	60

423

The table shows the rapid increase in the use of this method in the treatment of disease.

Very respectfully,

FRANCIS CARTER WOOD,
Pathologist.

PROSPECTUS OF ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES, NEW YORK.

St. Luke's Hospital of New York is prepared to give a three years' course of training to women desirous of becoming professional nurses. Application must be made either in person, or through the printed "form of application," to the Directress of Nurses.

The following information is furnished to candidates for admission to the Training School:

Candidates must be from twenty-three to thirty-three years of age. They must be in sound physical condition, and must send, with their application, a certificate from a physician testifying to this fact. They must also give the names and addresses of two persons, not relatives, to whom the Hospital may refer.

A limited number only can be received. The rejection, therefore, of a candidate is no reflection on the individual's character, neither does it prove her to be disqualified for admission to other Training Schools. The reasons for rejection are not given either to applicants for admission or probationers on duty, neither are letters addressed, personally, to the authorities of the Hospital returned.

Candidates for admission are not received in classes, but individually as the work of the Hospital requires. Classes are formed at the convenience of the school.

Accepted candidates are nominated in order on a "waiting list," and will be called for duty as the needs of the Hospital require. When called they are expected to report promptly, and to bring with them the means of returning to their homes, should they not successfully pass their probationary term.

Accepted candidates, while awaiting a call, should prepare themselves for their class work by studying Anatomy and Physiology. The class book used in St. Luke's Training School is "Kimber's Anatomy and Physiology for Nurses."

Any change of plan, or of address, on the part of a candidate, whose name is on the waiting list, should be immediately reported to the Directress of Nurses.

Probationers are boarded, lodged, and have their laundry work done at the Hospital. Twenty-four pieces are allowed for the laundry each week.

Each probationer, who passes through two months of trial, will be admitted to the school and will then be required to sign a written agreement to remain in the school for three years, and to conform to its rules and the rules of the Hospital.

The qualifications of nurses for the work, and the propriety of retaining or dismissing them at the end of their probationary term, are determined by the Directress of Nurses. She can also, with the approval of the Training School Committee, dismiss any nurse at any time for misconduct or inefficiency. The nurses reside in the Hospital and serve as assistants in its wards.

Nurses after they are admitted to the school are required to wear the Training School uniform while on duty. In addition to board, lodging, and laundry each nurse receives ten dollars (\$10) per month during her whole course, for dress, text-books, and other expenses in connection with her work. It is considered that the education given during the course is a full equivalent for services rendered.

The uniforms belong to the school, and must be returned in case a pupil leaves or is dismissed during her course of instruction.

Hours of duty are from 7 A.M. to 7.30 P.M., for day staff; 7.30 P.M. to 7 A.M. for night staff. Leisure hours: Two hours daily, one afternoon each week from 2 to 7.30 P.M. Sunday, half the day. These hours are subject, however, to the requirements of the work. Nurses may be called upon for day or night duty, or for care of private patients in the Hospital, as may be necessary.

Three weeks' vacation is allowed each year. Pupils will not be allowed during their course of instruction to nurse sick relatives at home, or to absent themselves for other personal reasons. Absences are not allowed except for extreme cause. If for any reason any nurse is called away for any period exceeding four weeks, she loses her class position in the school, but may enter the following class, unless such absence exceeds four months, when she will, *ipso facto*, cease to be a member of the school. If readmitted, she must begin her course anew; provided, how-

ever, that this rule may be modified by the Training School Committee at its discretion. If pupils are sick they are cared for in the wards of the Hospital.

Instruction is given mainly by the Directress of Nurses and by the head nurses of the wards. Lectures by physicians and surgeons, and recitations, take place at stated periods. Examinations by a Committee of the Medical Board, chiefly upon practical points, are held at stated intervals.

Opportunity is given for training in obstetrical nursing.

When the full term of three years is completed, and the pupils are regarded as thoroughly qualified, they receive, if their conduct and examinations have been satisfactory, diplomas certifying to that fact, after which they are at liberty to choose their own field of labor. The religious services of the Hospital are those of the Protestant Episcopal Church, and the pupils of the school are expected to attend these services regularly.

The right is reserved by the Hospital to terminate the connection of any pupil with the school for reasons which to the Hospital may seem sufficient.

ADMISSION OF PATIENTS.

DISEASES TREATED.

All kinds of *acute, curable and non-contagious* diseases treated in the wards. Sufferers with chronic and incurable complaints received and retained at discretion, but not permanently provided for. None are received as patients who, from the nature of their ailment, would occasion discomfort to their neighbors. The following are inadmissible: Sufferers from contagious diseases, cancers of an incurable and offensive nature, epilepsy, opium habit, delirium-tremens, insanity, and venereal disease.

MODE OF APPLYING.

Applicants received in person daily (except Sunday) from 10 A.M. to 5 P.M. Cases of sudden injury, requiring immediate care, received at any hour, and, if need be, without charge.

Applicants *from the city*, too sick to apply in person, will be examined by a physician at their residences.

Applications *from out of the city* should be made in writing to the Superintendent. Such communication should enclose a written certificate from a regular physician as to applicant's disease, present condition, and symptoms. It should state whether bed in general ward or private room is desired. If latter, at what price, and on which of hereinafter named conditions.

Applicants from out of the city requiring *medical* treatment not ordinarily received.

Applicants requiring *surgical operations* not obtainable at home admitted from any part of the country.

RATES OF BOARD.

GENERAL WARDS.

Board of patients in general wards per week is \$10.50 for adults and \$6 for children (under twelve years of age), payable each four weeks in advance. Unexpended portion of above refunded at same rate on patient's discharge.

Applicants applying for FREE treatment, in whole or in part, must be suitably certified as unable to pay Hospital rates, and as worthy objects of charity.

PRIVATE ROOMS.

The charitable work of the Hospital is done in the general wards. The income from board and nursing of private patients is applied toward making up deficiency of revenue of the institution, to support increasing charity work of general wards.

PRICES OF PRIVATE ROOMS.

Single rooms from \$3 to \$6 per day, which does not include Attending Physicians' or Surgeons' fees.

Hospital charges in private rooms invariably must be paid each two weeks in advance, and unexpended balance will be refunded at same rate on patient's discharge.

The Superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

House Physicians and Surgeons at all times within call, at discretion of nurse.

Diet regulated by physicians' orders, and meals served at regular hours.

AS TO FEES.

No Officer, Nurse, or Servant is allowed to receive any fee or gift from a patient.

PROFESSIONAL SERVICES OF PHYSICIANS AND SURGEONS.

The Physicians and Surgeons give their professional services without salary to the Hospital, under the following terms and conditions:

1. They will not receive professional fees under any circumstances from any patient occupying a bed in the wards of the Hospital; neither will they expect or receive such fee from any patient occupying a private room, provided that, in the opinion of the Hospital authorities, ability does not exist on the part of such patient to pay for the services of the Attending Physician or Surgeon, besides paying first the Hospital charges for board and nursing.

2. The Attending and Consulting Physicians and Surgeons are expected to make definite private arrangements as to their professional fees with those patients whom they recommend to the Hospital authorities for their private treatment, *before* such patients are sent to the Hospital.

3. The Hospital authorities protect their own Staff from a misuse of their charitable services, by recommending any applicant who applies directly to the Hospital for the use of a private room to any member of the Attending or Consulting Staff, whom they may select, that the above arrangements may be made.

4. The Physicians and Surgeons treat patients in endowed private rooms under the same rules as apply to patients in other private rooms, giving their services without fee, only to those who are unable to pay it, besides paying the Hospital rate for board and nursing.

5. Copies of these rules may be shown at discretion to applicants for private rooms, that they, before admission, may designate in which of these ways their means allow them to avail themselves of the privileges of the Hospital.

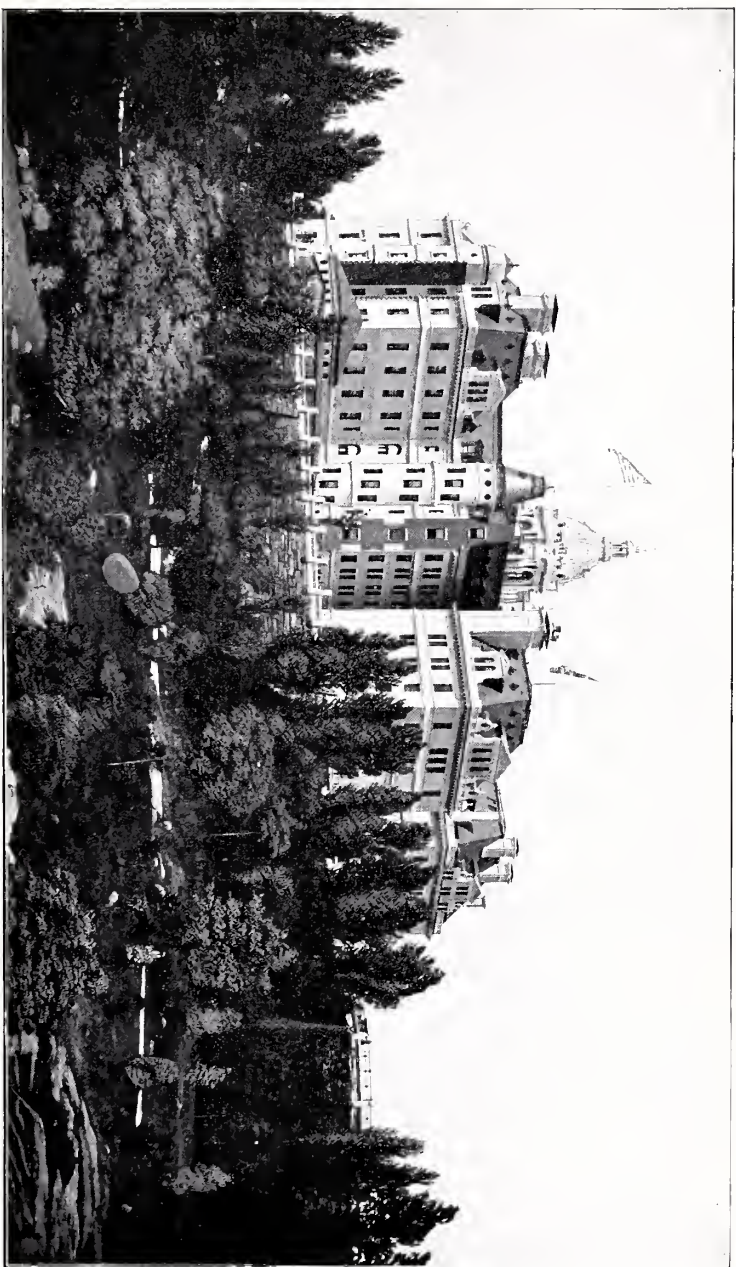

RULES FOR PATIENTS.

All patients admitted to the Hospital will be required to conform to the rules of the house. Patients receiving charity are expected to show a readiness to oblige one another and to assist in such becoming services in the wards as their health enables them to perform, remembering that they have voluntarily come into a household of which the great law is that of mutual kindness and brotherly love.

1. Profane or indecent language, irreverent behavior at the services of religion, the expression of immoral or infidel sentiments, and the like, are offences for which a patient will forfeit his place in the Hospital. There must be perfect silence in the wards during the religious services, and during the doctors' regular professional rounds. Loud talking, reading, or calling across the ward are not allowed at any time.

2. Patients are not allowed to leave the wards to which they respectively belong, except for the corridors attached to their wards, and the Chapel, without permission. When desiring to go beyond the bounds of the Hospital, patients must obtain a pass and leave it at the Office. Monday is the regular "pass day." Passes are not granted on other days except for special causes, when they must be indorsed "approved" by the Superintendent.

3. All wines, spirituous liquors, medicines, fruits, food, or delicacies of any kind, except those prescribed and furnished by the Hospital, or furnished by express permission of the Hospital authorities, are strictly prohibited. Any patient receiving such articles irregularly through his friends will make himself liable to discharge. Only such books, pamphlets, newspapers, and packages are allowed in the wards as are approved by the Superintendent. Orders for daily papers are received and executed through the Office. Newsboys or other venders not allowed in the buildings.

ST. LUKE'S HOSPITAL, NEW YORK. (REAR VIEW.)

4. No patient may purchase, or procure any members of the household to purchase for him, any articles whatsoever without leave to that effect.

5. Patients are expressly forbidden to spit anywhere except in their spittoons, nor shall they use chewing tobacco without the permission of the House Physician or Surgeon.

6. Patients must not open or shut any window or register of a ward at their own option.

7. The hour for patients in the wards to retire to their beds is 9 P.M.

8. The Hospital will not be responsible for any property belonging to patients ; but there is a safe in the Office where money and valuables may be deposited, for which articles, when so deposited, a receipt will be given.

9. When a patient desires the visit of a clergyman, not in the house, he must signify the same to the Pastor or Superintendent, who may, at his discretion, invite the clergyman, with the understanding that he will confine his visit to the person desiring to see him.

REGULATIONS FOR VISITORS.

1. Visitors desirous of seeing the institution will be admitted daily (Sunday excepted), between 9 A.M. and 12 M. and between 1 and 5 P.M. Ushers will be in attendance to show visitors over the buildings.

2. The friends of patients are admitted to the general wards from 2 to 3.30 P.M. on Tuesdays and Fridays, and on Sundays from 4.45 to 5.30 P.M.

3. Women visitors, unless near relatives, are not admitted into the Men's Wards, nor men visitors into the Women's Wards.

4. All visitors are respectfully requested to leave when the chimes are rung at the expiration of the visiting hour.

5. The cards of visitors to the private patients will be taken to their rooms, under restrictions imposed by the Attending Doctor, daily, from 10 A.M. to 1 P.M.; from 3 to 5 and from 7 to 8 P.M. Such visitors will be expected to leave the rooms of their sick friends during the doctor's visit. They are to leave before the doors of the Hospital are closed at 10 P.M.

6. The friends of patients are cordially invited to the Chapel Services on Sundays at 4 P.M.

7. In cases of extreme sickness special passes will be granted to the immediate relatives of the sick patient.

8. No fruit, liquors, or delicacies of any kind whatsoever may be taken by the friends of patients into the wards or private rooms. All such articles must be left at the Office, and, if approved by the doctors in charge of the patients for whom the articles are intended, will be delivered.
